

MOISTURE TESTING FOR CONCRETE

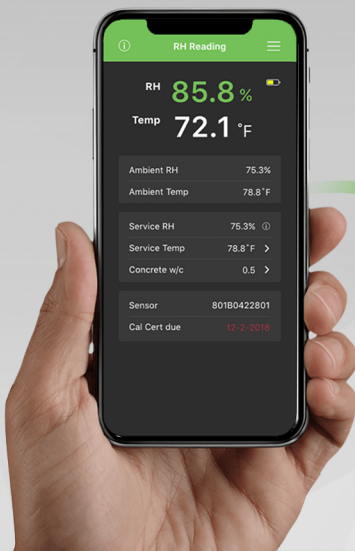

RAPIDRH L6

TIME-SAVING TOOLS AND ACCESSORIES

Check out these labor-saving advancements. They're all part of the Rapid RH L6 family of products!

FREE DATAMASTER™ L6 APP

No more transcribing moisture data by hand using pen and paper! Plus, it's super easy to store your test data and send reports to your clients using your smart device.

RAPID RH TOTAL READER®

Designed for fast and easy readings. The perfect companion for use with the DataMaster L6 app. Includes a built-in sensor for ambient temperature and relative humidity.

OUR BASIC STARTER KIT

(with the Total Reader and L6 Smart Sensors) gives you everything you need for fast, easy, accurate testing of concrete moisture.

OPTIONS FOR AUTOMATIC DATA LOGGING

To save you even more time, here are two advanced options you'll want to consider:

1. DataGrabber® with Bluetooth®:

Saves you time and trips to the jobsite by automating your readings. This little device “grabs” and stores RH readings at time intervals that you specify. Use it with the DataMaster L6 app.

2. True Remote Monitoring™ System:

Save even more time! Monitor all your United States jobsites from anywhere in the world, thanks to our new partnership with Floorcloud™.

You get real-time data (ambient temperature and humidity, dew point, concrete temperature, and concrete RH %). Includes the Floorcloud sensor and mobile app.

THERE ARE THREE HARDWARE COMPONENTS TO THIS SYSTEM

Rapid RH L6 system, including the Rapid RH L6 Sensor and the DataGrabber with Bluetooth

Rapid RH DataGrabber Range Extender (DGRE) and Protective Dome

Floorcloud Jobsite Conditions Sensor
